

# Lead-Based Paint Repair, Renovation and Painting (RRP) Certification Training

Under the [North Carolina Rules](#), beginning January 1, 2010, dust sampling technicians, firms, and individuals performing renovation, repair and painting projects for compensation that disturb lead-based paint in homes and child-occupied facilities built before 1978, must be certified and must follow specific work practices to prevent lead contamination.

The RRP program mandates that contractors, property managers and others working for compensation in homes and child-occupied facilities built before 1978 must be trained and use lead-safe work practices.

## Who needs the lead-based paint RRP certification?

- Carpenters
- Plumbers
- Painters
- HVAC
- Electricians
- Window replacement
- Sheetrock/Drywall
- Maintenance

**Friday,  
September 17**
