NYACP District Presidents

Congratulations to the below Chapter members who were appointed to serve as a local NYACP District President. The NY Chapter of the ACP has 16 districts across the state, each with grassroots leadership to address the unique needs of that area (view all leaders). The NYACP District Presidents host local events for members and non-members to provide opportunities for education and networking. In addition, they bring the voice of local members to the NYACP Council Board meetings.

If you have a suggestion for a district event or would like to volunteer and join your local district planning committee, please complete an interest form.
