International Medical Graduate Toolkit
Essential Resources for International Medical Graduates

ACP created a member-exclusive toolkit to help international medical graduates (IMGs) navigate the process of practicing internal medicine in the United States.

ACP’s member-exclusive toolkit helps you navigate the process of practicing internal medicine in the United States.

More than 30 resources are available for early career physicians and residents, including:

- Career guidance.
- Mentoring resources.
- Help in preparing your residency application.
- Tools for mastering the match process.
- Opportunities to build your CV.
- Visa and immigration policies.
- Best practices for financial planning.
